T7450 Trinity

T7400

Customer pagers are used extensively in many industries around the country to eliminate overhead paging, locate waiting customers quickly and easily and, run a more efficient business.

Customer Pagers:

- Cool Blue™** The latest design in customer paging coasters featuring a totally unique clear blue case with bright blue lights. It's a must-have, cutting edge product.
- Coaster Call®** The world's first UHF pager in a coaster! Its design is virtually indestructible. Often copied, never duplicated.
- Adver-Teaser™** This customer pager allows you to advertise using a standard business card. One-piece construction with no exposed screws.

Transmitters:

- T7400** Primary UHF transmitter used with Coaster Call and Adver-Teasers
- T7450 Trinity** Features patented technology to page cell phones, onsite pagers or personal wide area pagers. The most feature packed transmitter available.

Features of our Customer Paging Systems Include:

- **Cell Phone Paging** - reach customers on their cell phones with a recorded message*
- **Anti-theft & Auto-locate** – Minimizes pager loss.
- **UHF FM Frequency** – For better range.
- **Nickel Metal Hydride Batteries** – For longer charge life
- **We ARE the manufacturer.** We build our customer pagers to be durable and water resistant.
- **Various Paging Modes** – Flash, beep, vibrate, and glow.
- **Unique ID Codes** – Ensures that you will not have interference from other businesses or departments using paging systems.
- **Built-in Clock & Wait List Timer.**
- **Free 24/7 Technical Support.**
- **Easy Care and Lifetime Warranties Available** – To maintain paging system.
